

Trust Me! Try Dodson's Liver Tone! Calomel Harms Liver and Bowels

Read my guarantee! Liven your liver and bowels and get straightened up without taking sickening calomel. Don't lose a day's work!

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

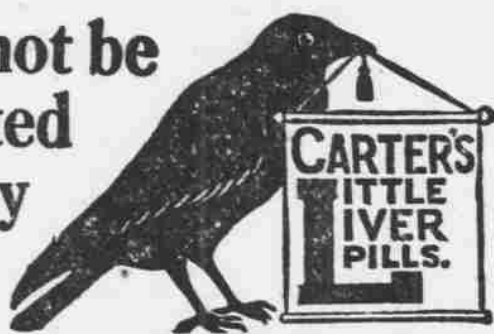

Calomel is a dangerous drug. It is

mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.—Adv.

Exactness is Lesson of War.

One of the lessons taught by the war is the necessity for exactness in every act. No haphazard methods are permissible in a matter of such vital import.

When Baby is Teething
GROVER'S BABY BOWEL MEDICINE will correct
the Stomach and Bowel troubles. Perfectly harmless. See directions on the bottle.

Some men fail to arrive because they carry too much excess baggage.

No Mystery in Meat

Some things are so simple that they have to be explained again and again. When things are obvious, people keep looking for mysteries behind them.

So it is with the packing business. The mere size of Swift & Company confuses many. Because their imaginations are not geared up to scale, they believe there must be magic in it somewhere—some weird power.

Swift & Company is just like any other manufacturing business run by human beings like yourself; it takes in raw material on the one hand and turns out a finished product on the other.

Swift & Company keeps down the "spread," or the expense absorbed between raw and finished material, to as low a figure as possible. (If it didn't it would be put out of business by others who do.)

How much Swift & Company pays for the raw material, and how much it gets for the finished product, depends upon conditions which Swift & Company does not control.

It depends entirely upon how much people want the finished product, and how much raw material there is available to make it from.

The profits of Swift & Company amount to less than one cent per pound on all meats and by-products—less than one-fourth of a cent on beef.

BAPTIST CAMPAIGN ON FOR \$1,000,000

ROCKEFELLER FOUNDATION TO
MATCH DOLLARS UP TO TWO
HUNDRED THOUSAND.

EDUCATIONAL SUNDAY RALLY

The Undoubted Success of This Movement Will Add Necessary Sum to School Endowments.

Charlotte.—Baptists of North Carolina have completed plans for their campaign for the million dollar fund, which is to be raised and added to the endowments of the Baptist colleges and schools. The campaign proper will begin November 1.

The fund will be divided among Wake Forest College, which is located at Wake Forest; Meredith College for girls, at Raleigh, and the 18 high schools under the jurisdiction of the Baptist denomination in North Carolina.

Dr. Luther Little, pastor of the First Baptist church of Charlotte, stated that Sunday, November 17, had been set aside by the Baptists of the city as "Educational Sunday," when special services will be held in the church. Dr. W. L. Poteat, president of Wake Forest College, will occupy the pulpit of the First church. On the same date Dr. W. R. Cullom, of the Wake Forest faculty; Dr. R. T. Vann and Dr. Livingston T. Mays, field workers in the campaign, will occupy other Baptist pulpits in the city. All will speak in behalf of the campaign.

Dr. Little announced that the American Baptist Educational Society of the Rockefeller Foundation had promised to give \$200,000 toward the fund upon the completion of a like amount by the campaign committee. This \$400,000 will be given to Wake Forest College.

Tokens for Doctor and Nurse.

Kinston.—Dr. A. L. Hyatt, physician in charge, and Miss Louise Nell Nicholls, head nurse, have been presented handsome tokens of the esteem of their assistants at the Red Cross temporary hospital here. Dr. Hyatt was given a gold wrist watch of military design and Miss Nicholls an ivory toilet set. The donors included many representative men and women, volunteer nurses and attendants at the institution, which handled as many as 100 cases at a time during the recent influenza epidemic. Dr. Hyatt is a local young physician who has been working under orders from the State Board of Health. Miss Nicholls' home is at Baden, N. C. She is a volunteer Red Cross nurse. The emergency hospital now contains but two patients.

Another Week of Quarantine.

Charlotte.—Charlotte will remain in quarantine until November 8th. This decision was reached by the mayor and city commissioners after listening to arguments advanced by the members of the Mecklenburg County Medical society against lifting the quarantine. The meeting was held at the instance of the city officials, with a view to obtaining expert advice on the quarantine situation.

Dr. Hudson, speaking at the meeting, stated that, in his opinion, the quarantine could safely be partially raised, at least, but his argument brought forth strong opposition from the members of the society, who declared that lifting the quarantine now would be tantamount to gambling with lives in Charlotte.

Conditions Are Appalling.

Asheville.—The conditions along the Transylvania division of the Southern railway from Hendersonville to Toxaway and in many other parts of the Carolinas, as a result of the heavy rains are appalling. Thousands of dollars damage have been done to railroads, lumber operations, and dirt roads. Transylvania county being one of the hardest hit as a result of the high waters. The Transylvania division from Hendersonville to Toxaway is completely out of operation.

Teachers Taken to Task.

Durham.—Durham county teachers were taken to task by Chairman J. S. Carr, Jr., of the county relief committee, in the Spanish influenza epidemic, for their failure to respond to calls for assistance, following their pledges for service. Mr. Carr did not make a blanket charge against the teachers, declaring that many of them had done splendid work. His remarks were made at a meeting of the teachers, attended by the county commissioners' relief committee, and members of the board of education.

Wilkes County Raid.

Statesville.—Deputy Collector R. P. Allison, of Revenue Agent T. H. Vanderford's force returned here from a raid which he conducted in Wilkes county, in which he found and poured out over three thousand gallons of "still beer" being fermented in preparation for a "run" of blockade whiskey. Deputy Allison did not arrive on the scene in time to seize the still itself, the blockaders probably having been made aware of his presence in the community, moving it to a place of hiding.

NEW RECORD OF VIOLENCE

Influenza Situation at Raleigh Is Desperately Bad and May Yet Grow Much Worse.

Raleigh.—A new record of violence is being scored by the influenza epidemic in Raleigh and the authorities fear that the worst is not yet reached. Emergency ambulances are constantly bearing additional victims of the disease to the hospitals and the high score of 16 deaths was attained by ravages of the disease yesterday, with scores of victims desperately ill in all parts of the city. One of the most notable deaths was C. E. Hartge, well known architect, who died at Rex hospital. There were a dozen or more deaths at the city high school building, which is being used as an emergency hospital.

There is continued improvement throughout the state with regard to the influenza epidemic. The improvement showing especially in the towns and cities.

Dr. Graham Dead.

Chapel Hill.—All of Chapel Hill is grief stricken by the death of Dr. Edward Kidder Graham, president of the university, who passed away at 8:15 o'clock on the night of October 26. His death will bring sadness to thousands of friends and the university men throughout the nation. In the death of President Graham the university lost a leader who, in the brief period during which he had been at its head, had brought it into intimate touch with the people in a steadily increasing service.

No More Comfort Kits.

Charlotte.—The Charlotte chapter of the Red Cross is informed that, as a result of an order issued by the general staff of the army at the request of General Pershing, barring comfort kits from the personal baggage of soldiers going overseas, the Red Cross has decided to end the distribution of these to men in the training camps. The Red Cross, however, will be able to arrange for the shipment of a large number of kits through the regular freight channels and these will be distributed through the foreign commissions, as the kits contain a number of articles which can not be purchased in Europe.

Red Cross chapters also have been requested to discontinue the direct distribution to drafted men of knitted articles made from Red Cross materials. The limited supply of yarn and the consequent necessity of preventing duplication makes it advisable that all knitted articles be distributed by the Red Cross representatives in the camps henceforth.

Espionage Hearing Postponed.

Asheville.—The preliminary hearing of D. P. Ferguson, of the Big Sandy Mush section of the county, on a charge of violating the espionage act, which was scheduled to take place before United States Commissioner Vonno L. Gudgeon Saturday afternoon, has been postponed until November 25. This action was taken at the request of District Attorney W. C. Hammer, of Asheville, who desires to personally conduct the preliminary investigation. Ferguson is charged with making a serious criticism of the administration in a letter to the Bryson City bank, enclosing a deposit of nearly \$2,000, declaring he wanted to place his money in some bank outside of the county for the reason that the banks in this county were wanting him to invest the money in Liberty Bonds.

The Bryson City bank refused to accept the deposit and took occasion to write a severe condemnation of his action in their reply. Ferguson is reported to be worth about \$75,000, and is one of the leading farmers of the county. The outcome of the case will be watched with interest here.

Recent Rains Doing Damage.

Boone.—Recent rains in this section have been heavy, in fact unusually so. Streams have been swollen and overflowing their banks, being only from two to three feet lower than they were during the great flood in 116. A number of bridges are washed away. Near Shulls Mills a section of the railroad was washed away. The extent of the damage to crops has not been learned, but as most of the corn was gathered the damage will not be large.

Meeting of Suez Temple.

Charlotte.—Arrangements for the regular fall ceremonial meeting of Suez temple, No. 73, D. O. K. K., which will be held in this city, Tuesday, November 26, were made at a meeting of the divan of the temple.

A large representation of members of the order from Gastonia, Salisbury, Baden and other nearby towns are expected to be present and participate in the festivities. In former years there has usually been between 400 and 500 visiting members at the Charlotte celebration.

An Essential Industry.

Charlotte.—The following letter to the president of the Charlotte Automobile association written by E. N. Farris, chairman of the local United States community labor board, was given out for publication by Mr. Farris: "There seems to be a misunderstanding in some sources that the United States labor board has declared the automobile business as a non-essential industry. A careful perusal of all orders and information received from both state and federal offices fails to show any such ruling.

HOW TO USE VICK'S VAPORUB IN TREATING SPANISH INFLUENZA

The Influenza Germs Attack the Lining of the Air Passages. When VapoRub Is Applied Over Throat and Chest, the Medicated Vapors Loosen the Phlegm, Open the Air Passages and Stimulate the Mucous Membrane to Throw Off the Germs.

In Addition, VapoRub is Absorbed Through and Stimulates the Skin, Attracting the Blood to the Surface and Thus Aids in Reducing the Congestion Within.

CALL A PHYSICIAN — GO TO BED — STAY QUIET — DON'T WORRY

There is No Occasion for Panic—Influenza Itself Has a Very Low Percentage of Fatalities. Not Over One Death Out of Every Four Hundred Cases According to the N. C. Board of Health. The Chief Danger Lies in Complications Arising, Attacking Principally Patients in a Run-Down Condition—Those Who Don't Go to Bed Soon Enough, or Those Who Get Up Too Early.

Spanish Influenza, which appeared in Spain in May, has all the appearance of grip or la grippe, which has swept over the world in numerous epidemics as far back as history runs. Hippocrates refers to an epidemic in 412 B. C. which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831, this country has had five epidemics, the last in 1889-1890.

THE SYMPTOMS. Grippe, or influenza, as it is now called, usually begins with a chill, followed by aching, feverishness and sometimes nausea and dizziness, and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air passages—nose, throat and bronchial tubes; there is usually a hard cough, especially bad at night, and frequently all the appearances of a severe head cold.

THE TREATMENT.

Go to bed at the first symptoms, not only for your own sake, but to avoid spreading the disease to others—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Quinine, aspirin or Dover's Powder, etc., may be administered by the physician's directions to relieve the aching. But there is no cure or

Some people's charity is confined to the distribution of lemons.

SAFE, GENTLE REMEDY CLEANSES YOUR KIDNEYS

For centuries GOLD MEDAL Haarlem Oil has been a standard household remedy. They are the pure, original imported Haarlem Oil your great-grandmother used, and are perfectly harmless. The healing, soothing oil soaks into the cells and lining of the kidneys and through the bladder, driving out the poisonous germs. New life, fresh strength and health will come as you continue the treatment. When completely restored to your usual vigor, continue taking a capsule or two each day; they will keep you in condition and prevent a return of the disease.

Do not delay a minute. Delays are especially dangerous in kidney and bladder trouble. All druggists sell GOLD MEDAL Haarlem Oil Capsules. They will refund the money if not as represented. GOLD MEDAL Haarlem Oil Capsules are imported direct from the laboratories in Holland. They are prepared in correct quantity and convenient form, are easy to take and are positively guaranteed to give prompt relief. In three sizes, sealed packages. Ask for the original imported GOLD MEDAL. Accept no substitutes.—Adv.

They are not a "patent medicine," nor a "new discovery." For 200 years they

specific for influenza—the disease must run its course. Nature herself will throw off the attack if only you keep up your strength. The chief danger lies in the complications which may arise. Influenza so weakens the bodily resistance that there is danger of pneumonia or bronchitis developing and sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days or more after the fever has left you, or if you are over 60 or not strong, stay in bed four days or more, according to the severity of the attack.

EXTERNAL APPLICATIONS. In order to stimulate the lining of the air passages to throw off the grippe germs, to aid in loosening the phlegm and keeping the air passages open, thus making the breathing easier, Vick's VapoRub will be found effective. Hot, wet towels should be applied over the throat, chest and back between the shoulder blades to open the pores. Then Vick's VapoRub is rubbed in over the parts until the skin is red, spread on thickly and cover with two thicknesses of hot flannel cloths. Leave the clothing loose around the neck, as the heat of the body liberates the ingredients in the form of vapors. These vapors, inhaled with each breath, carry the medication directly to the parts affected. At the same time, VapoRub is absorbed through and stimulates the skin attracting the blood to the surface and thus aids in relieving the congestion within.

HOW TO AVOID THE DISEASE. Evidence seems to prove that this is a germ disease, spread principally by human contact, chiefly through coughing, sneezing or spitting. So avoid persons having colds—which means avoiding crowds—common drinking cups, roller towels, etc. Keep up your bodily resistance by exercise in the open air and good food. Above all keep free from colds, as colds irritate the lining of the air passages and render them much better breeding places for the germs. Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little in a spoon and inhale the vapors, or better still, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary tea-kettle. Fill half-full of boiling water, put in half a teaspoon of VapoRub from time to time—keep the kettle just slowly boiling—inhalate the steam arising. Vick's VapoRub can be had in three sizes—30c, 60c, \$1.20—at all druggists.

Proving It. "Trouble never comes single." "I know it. Last year we had double pneumonia, and this year we had twins."

Acid-Stomach Makes Millions Weak and Miserable

For years dentists have been telling us that it's acid mouth that ruins the teeth, yet this acid that is powerful enough to eat through the hardest bone enamel of the teeth and decay them, is tasteless. Its presence can be detected only by chemical tests.

No chemical test is needed to tell you that you have acid-stomach. Indigestion, belching, heartburn, sour stomach, food-repeating, that miserable puffed up feeling after eating, intestinal stagnation, flatulence, etc. These are all Nature's warning to you. They are sure signs of superacidity.

Acid-stomach prevents proper digestion and assimilation, thus causing the blood to become thin and impoverished as a result of which people become anemic, emaciated, sick and bad looking.

Acid-stomach causes stomach and intestinal fermentation, producing poisons and toxins which, absorbed into the blood and carried throughout the system, cause auto-intoxication, insomnia, nervousness, irritability, mental depression, melancholia, dizziness, vertigo and often, valvular heart trouble and heart failure.

Acid-stomach causes irritation all along the intestinal tract—irritation so severe and aggravating as to frequently result in catarrh and even cancer of the stomach.

What chance, then, has anyone for robust health, happiness or success if

this acid-stomach is allowed to tear down and use up day after day your strength and vitality faster than you can get it out of food you eat. Life is indeed dark and dreary for a person with acid-stomach.

You crave health, strength, the power and will to think and act—don't you? You want to feel full of pep and energy, fine and fit, always eager for work and pleasure.

Then you must rid your stomach of its excess acid. You can start doing it now. A wonderful modern medicine has made it possible to literally "eat out the excess acid." This remedy is called EATONIC. It is made in pleasant-tasting tablets and you take them just like a bit of candy.

And, my, how good EATONIC makes you feel! It banishes acid-stomach miseries like magic! Makes the stomach cool, sweet and strong. Helps you to get full strength out of your food so that, in turn, your body and brain are vigorous, alert and keen.

EATONIC is absolutely guaranteed, so get a big box from your druggist. If it does not help you your money will be refunded. If your druggist does not keep EATONIC, send your name and address to the Eaton Remedy Company, 1018 S. Wabash Ave., Chicago, Ill., and they will at once mail you a big box and you can send them the money for it after you receive it.
